**Ms. Rhonda Granja,
B.S., C.P.C., C.M.A.**

- There are 349 editorial changes for 2024 which include 230 additions, 49 deletions, and 70 revisions. We will look to see what has changed as it is imperative that we use the correct codes.
- We will dig into the guidelines as there is a lot of "green print" in the professional version of the AMA CPT 2024. We will explain what that means.
- Understanding that documentation is critical when it comes to supporting the codes that are being billed, we will discuss what should be documented to validate the new codes as preparation is key!
- There are Category III codes that are now Category I codes. What specialties are affected? We will discuss.
- Are there changes for Path/Lab and Telehealth? The answers will be given.
- Do not miss these updates so that you can determine what sections are crucial to you and your specialty.

- New Practice Expense code for a Pelvic examination. CPT code 99459.
- What about Split/Shared? Does CPT guidance differ from CMS?
- Which appendices are new and relevant for virtual medicine? We will answer this and look at together.
- We will also introduce/discuss the new HCPCS code G2211. We can agree that we need more guidance and yet it became effective 1/1/2024.
- COVID changes and identifying what is already outdated in the "new" 2024 book. Important to note!
