HCC

2024

- Attendees will have a clearer understanding of HCC Coding and Risk Adjustment.
- We will demonstrate HCC's and the meaning behind Value Based Care and risk adjustment.
- Explanation will be given as to why providers need to be more specific in their documentation.
- Discussion of "MEAT" and "TAMPER". What do those terms mean?
- We will be able to show the need for improving our medical records and defend our documentation.
- Version 28 includes some common conditions that will no longer map to a risk score.

McVEY
SEMINARS

800-227-7888

38th Year

How a Webinar Seminar Works:

1. Register by fax, mail or online. Cost is \$199 per one of the following options - landline, computer or Ipad.
2. The audio/video portion for this course can be heard via landline, mobile or web browser. Major browsers on windows, MAC OS X & Linux.
3. You'll receive Dial-in access, and materials a few days before the program.

HANDLE SPECIAL HCC SITUATIONS

- A change to a very commonly reported condition is diabetes, which has decreased values in V28. Some categories are eliminated entirely. V28 assigns a risk score to 2,264 fewer diagnosis codes.
- The current HCC categories were developed using ICD-9-CM codes. (Revised to ICD-10-CM on October 1st 2015) The new categories are built around the structure of ICD-10-CM codes and use the clinical concepts in that coding system.
- CMS pays Medicare Advantage (MA) plans using Hierarchical Condition Categories (HCCs), and many private payers and ACOs use the HCC model for risk adjustment. This concept is critical as we move forward with quality in healthcare.
- Version 28 contains 10 HCCs for heart conditions. Angina codes, except for unstable type and supraventricular tachycardia, have been removed from being risk-adjusted.
- Understanding the recent changes and communicating effectively with your coders and physicians is critical to successfully documenting, coding and paying for risk adjustment. Now is an ideal time to review, and to educate coders, CDI teams and physicians on the recently enacted updates.

Learn How To

About your seminar leader:

Rhonda Granja, B.S., C.P.C., C.M.A. is an administrator, coder, biller and management consultant with 20 years of successful work in varied healthcare practices. From Medicare "Part B" side, administrator in private practice, "fighting it out" with insurances, consulting with varied specialties on-site, and active membership in AAPC & MGMA in support of fellow office managers, she has a rich background. From a practice consulting business to continuing on-site management, Rhonda's experience is unique and comprehensive. Attendees, or consulting clients, have the opportunity of learning solutions to their insurance problems from "real world" experience, both in Rhonda's instruction and the "on-site networking" in our specialty only workshops. Ms. Granja is committed to assisting medicine oriented specialty practices in taking charge; to stop being "controlled" by patients, insurance companies, managed care and governmental agencies. Please join with your fellow Medical Specialty offices for her unique seminar day discovering solutions together.
