*Learn Primary Care Coding
Techniques Through Workable Examples!*

2024

- We will define what Primary Care is.
- Take a look at common diagnoses that take place in a primary care setting.
- Look at guidelines for preventive medicine services that happen with a problem-focused visit on the same day.
- Recall guidelines for E/M services as well as minor/major procedures
- Vaccination coding and administration codes will be discussed.
- What about the new G2211?

About your seminar leader:

Rhonda Granja, B.S., C.P.C., C.M.A. is an administrator, coder, biller and management consultant with 20 years of successful work in varied healthcare practices. From Medicare "Part B" side, administrator in private practice, "fighting it out" with insurances, consulting with varied specialties on-site, and active membership in AAPC & MGMA in support of fellow office managers, she has a rich background. From a practice consulting business to continuing on-site management, Rhonda's experience is unique and comprehensive. Attendees, or consulting clients, have the opportunity of learning solutions to their insurance problems from "real world" experience, both in Rhonda's instruction and the "on-site networking" in our specialty only workshops. Ms. Granja is committed to assisting medicine oriented specialty practices in taking charge; to stop being "controlled" by patients, insurance companies, managed care and governmental agencies. Please join with your fellow Medical Specialty offices for her unique seminar day discovering solutions together.
